Paper Piecing
Class Requirements

Date: February 24, 2027

Time: 1pm – 4pm

Instructor: Lynne Jensen

Maximum # of Students: 10

Fee: $10

Description:

Learn a technique that guarantees precise piecing. You will be making small blocks using fabric scraps.

Skill Level: All skill levels. Must know only how to operate your sewing machine & stitch a straight line. Q2 has machines available. If you plan to use one of those, please practice with it ahead of the class.

Note: This class is a technique class only.

Supplies:

- Sewing machine and neutral color thread.
- Add a Quarter 12inch ruler. (You can order from Checker Distributing thru Alice for $14.49. Alice plans to place an order in early December)
- An index card or a piece of plastic that you can fold a piece of paper over to make a straight line.
- Rotary cutter, small cutting mat, iron and ironing mat. (If you don't have a mat or rotary cutter you can use the mat here and use the ironing boards. It's easier if you have your own next to your sewing machine; otherwise you will be getting up and down a lot.)
- Lynne will supply the fabric.
